

OSE Specialist

Abnormal, Hazardous and Temperature Controlled Transport

OSE specialise in a range of special assistance transport services including abnormal, hazardous and temperature controlled anywhere in the UK and Europe.

We also tailor all of our transport services in accordance with your exact cost and delivery time requirements.

For more information on our complete range of transport and logistics services, visit our services page [here](#).

All of our drivers are ADR qualified with years of experience handling hazardous cargo. As a team, we understand the logistical nature of ADR and Hazardous consignments and the utmost care is taken with all consignment handling.
