

OSE European

Hiab Haulage Services

OSE provide an extensive range of transport and logistics services throughout the UK and Europe including a specialist Hiab Haulage service.

Non-palletised loads? Restricted access delivery site? Delivery above or below ground level? Delivery to uneven ground? Or no forklift available?

Our Hiab Haulage service is perfect for all these scenarios.

With access to a Hiab vehicles ranging from 7.5T to 44T, we are have the ability, resources and experience to lift and load almost any size and weight of consignment.

We have also built and maintained a reputation throughout the UK and Europe for our efficient and quality services.
