

# OSE International

## International Air and Sea Freight

As well as our specialist road freight services including UK and European Express and Economy European Freight, OSE also provide International Air and Sea Freight and UK and European Warehousing services to complete our logistical services.

Our Air Freight service allows your consignment to be sent door to door, door to airport, import or export, express or economy to any country in the world, according to your timescale and budget.

For large, non time critical consignments our Sea Freight service could be the most cost efficient transport service for you.

Sea Freight provides you with the flexibility to ship full and part load containers on a longer planned time scale, depending on your requirements.

For more information on our Air and Sea Freight services visit our services website page [here](#).
